We don't want to be prescriptive about the Equipment Pilates classes you can and can't attend but we have added a gauge level: **Gentle** or **Faster**.

Gentle classes are generally more suitable if you are new to Equipment practice, don't like lots of new challenging moves or are recently post-operative or in specific re-hab.

Faster classes work at a pace where we look to fatigue the muscles and experiment with a broader repertoire in more adventurous positions!

JUMP Faster classes use the Jumpboard in a Faster Equipment class for cardio-vascular training, speed and agility.

Pre/Post Natal & Rehab session class participants work on different exercises with a shared instructor.

This schedule is subject to amendment for instructor illness/unavailability and will vary in school holidays. Please check the Live Schedule online for the definitive timetable.
